**Date: May 5, 2016**  
**Re: Membrane Repair**

---

The strata is starting repairs on the membrane to fix the leak in the underground garage in front of the garbage bins.

Excavation of the grounds between the South West corner of Hampton Court and North West corner of Churchill Place are scheduled to begin May 6, 2016 and may take 4-5 weeks to complete. Residents are asked to avoid the excavation area during the repairs.

Thank you for your patience and understanding during the repairs.

Should you have any questions, please do not hesitate to contact Roger Taylor at 250.383.9061.

Thanks,

RT
