To: All Residents
From: Roger Taylor, Strata Council
Re: Dryer Vent Replacements

Many of the current louver-style dryer vents have bent and broken louvers and birds are getting into the ducts, so the dryer vents are getting replaced with newer flapper-style vents.

Starting the week of Monday April 30, 2018, workers from Eagle Eye Restoration & Construction will be replacing dryer vents on both Churchill Place and Hampton Court.

Should you have any questions regarding this notice, please call Roger Taylor at 250-383-9061. Thank you.
